

# 2018 Phase I - SMT Equipment Additions

**Mycronic MYPro series MY300  
Placement Machine**

- Improved Vision Accuracy
- Increased Throughput
- Improved Electrical Verification

**VI technology K Series Automated  
Optical Inspection System**

- Provide 3D Inspection
- Able to Detect Lifted Leads

**VI technology Solder Paste  
Inspection System**

- Added Control of the Solder Paste Print Process to Increase Yield
- 100% of Solder Pads Inspected
